

PRIVEEL PEPTIDES

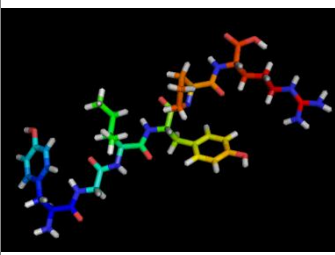

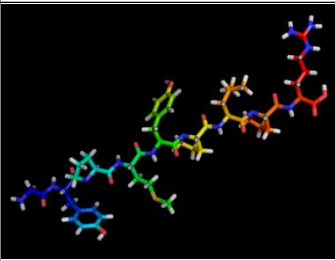

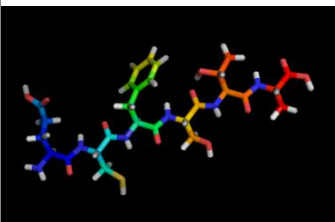

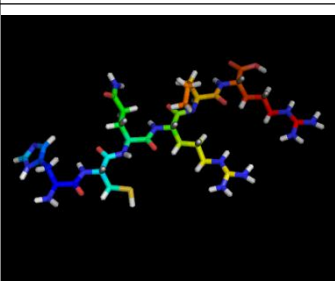

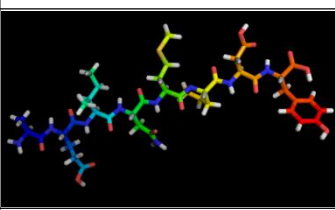

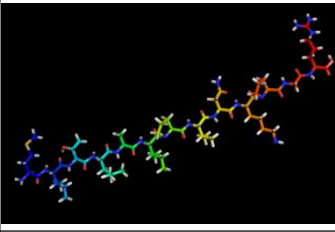

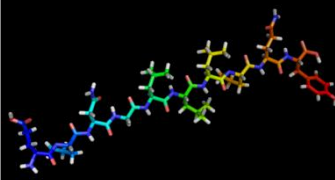

AGRICULTURAL PEPBASE

We, at Priveel Peptides focused on providing new era research to scientist and researchers by synthesizing novel custom peptides and peptide modification at high quality and purity. Our teams of chemists are well-trained; we delivered over custom peptides and are fully capable of meeting the ever-increasing peptide needs in biological and drug discovery research. Priveel Peptides success rate for peptide synthesis is well above the industry standard when synthesizing difficult peptides.
